

Pablo Souza

Web Developer

Profile

Information Technology student at the University of Sunshine Coast. Self-taught full-stack web developer passionate about learning. Two years experience with Front-End technologies (Angular, Vanilla JS, CSS, HTML, Wordpress, Firebase), One year experience with Back-End (ASP.NET C#, SQL, Entity Framework). Great communication skills, teaching full time for five years in my previous job.

Projects

Shift Tracker App

May 2021

<http://cappuccinoshifts.azurewebsites.net/>

App developed with C#, Angular, Firebase for authentication and Azure for database and hosting.

Movie Search App

April 2021

<https://cappuccinomovies.azurewebsites.net/>

My first Ionic App, with Imdb API as back end (mobile visualisation only)

Ju & Rafa

June 2020

<http://julima-rafapitarelo.com/>

Website for latin dance professionals Rafael and Juliana, created with WordPress and Elementor.

Doudoule Dance Camp

December 2019

<https://doudouledancecamp.com.au/>

Initially created with Bootstrap 4, Sass, I migrated the project to WordPress so client could easily manage content.
